**Citizens' Comments:**

Bob Rebuck and Deb Pruitt came back to the Supervisors Meeting this evening in the hopes that our solicitor, Tom Leipold, would have such advice for them regarding their ongoing situation with their neighbors. Bob indicated that the dog situation has improved but now it appears as though their neighbors are now intent on harassment of them. Tom told them that the problem is that the legal system does not deal well with irrational people. Tom also told them to call the police immediately if the situation turns threatening. Bob reports that their problems continue to escalate and the neighbors conduct is getting to the point of a feel of harassment or overt action. George suggested that they should try to videotape these actions. Judy asked Tom about the possibility of Valley Township looking at a generic nuisance ordinance. Mike does not feel we should consider enactment of a nuisance ordinance as it can be problematic such as how do you pick and choose what kind of noise is a "nuisance". He feels as development and pressures increase for regulation, then a nuisance ordinance may be necessary.

Bob Paul came to the meeting with a concern regarding his 33 foot driveway this is used by four other homes besides his own. There was to be a maintenance and upkeep agreement between all of these parties but unfortunately Mr. Paul is basically taking care of the entire bill in addition to insuring the driveway. Tom Leipold suggested to him that this is a civil contract issue and he should really get an attorney and take the homeowners to court. Unfortunately this too will cost Mr. Paul but there is nothing that any municipality can do to correct this situation for Mr. Paul. The other homeowners include Myers, Smith, Vincent and Sudol.
