Old Business: None

New Business:

Paul Krizan introduced himself and informed the commission about sewage issues in our township. A lengthy discussion of possible directions the township was taking to these issues followed. The commission asked the supervisors and Paul to keep us informed of any future solutions to these issues.

Tom presented a copy of the Armed Forces Reserve Center Final Environmental Assessment. This document indicates any impact to the environment of the future site of the reserve center. The supervisors indicated DEP issued 14 EDU's that were non transferable for the reserve center. A discussion about the impact this would have to our already overloaded system and those waiting to be connected followed. Tom asked the supervisors and Paul to keep the commission up to date on any further development.

The meeting was adjourned at 7:52 with a motion by Richard and a 2nd by Jon, motion passed.

Respectfully Submitted:

Scott Edmeads, Secretary Valley Township Planning Commission
